

Our National Parks – America's Best Idea

Hosted by Litchfield Garden Club, Zone II ~ June 9-10, 2017

T eddy Roosevelt got it right when he established the first National Parks, areas of truly wild and unspoiled America, where citizens could escape overcrowded cities and see the wonders that lie beyond the beaten path. Celebrating the 100th Anniversary of our National Park System, the Litchfield Garden Club created an innovative schedule for designers.
